# The European Union and Its Impact On Employment Laws In Europe

Event
7.17.12

***This webinar was originally presented in July 2012.***

Many employers operating in Europe are accustomed to dealing with local laws for a particular European Union country, but may not have time to focus on the broader impact of the European Union and how it works. This webinar provides an overview of the legal framework of the European Union and how it impacts the labor and employment laws of member states. Employment Tax issues, immigration, and employment issues in mergers and acquisitions are addressed.
