Todd Scherwin was quoted in the *Los Angeles Business Journal* on May 25, 2015. The article “Court to Make Call on On Call” discussed why the court’s ruling on guards’ breaks may pinch all industries.

Todd was quoted on his take of the *ABM Service Inc.* case.

Whether the court upholds that judgment or disallows it, said Todd, will impact businesses in virtually every industry.

“The amount of time, effort, money, legal fees and brain power that has been spent over the past few years ... it would make you cringe to think about the amount of time people fight over what’s a break and what’s a lunch,” Todd said.
