The article, "HB2 Affects Everyone With a Paycheck," featured on *Fox 46*, discussed how the House Bill 2 (HB2) could potentially impact everyone who has a job, not just the LGBT community.

Adam Bridgers weighed in on North Carolina's HB2.

"Very simply, employers in North Carolina who have 15 or more employees cannot discriminate against their employees based on a protected class. HB2 doesn't change that," said Adam.

Adams, who represents employers, said workers are protected under federal law.

"The federal system is very robust in its ability to police these matters and to address discrimination issues," said Adam.
