

Protect Your Company From a Data Breach

USE COMMON SENSE AND TAKE ACTION TO KEEP YOUR DATA SECURE

News

3.14.17

In the article, "Protect Your Company From a Data Breach," featured in *Colorado Biz*, Partner Danielle Urban discusses the need for companies to take cybersecurity seriously, devoting personnel and money to the issue. It is no longer enough to wait until something happens to take data security seriously.

"Start with a data security assessment," says Danielle. "If your company does not have the internal resources to perform the assessment, or doesn't know where to start or what to assess, there are a number of outside firms that can provide a thorough evaluation for a reasonable fee."
