In the article, "House Bill Introduced To Clarify Joint-Employer Relationships," featured in *Business Management Daily*, Partner John Polson discusses the effect that Bill H.R. 3441 would have on employers who rely on joint employment.

Polson said passage of the bill "would significantly narrow the definition of 'joint employment' to eliminate existing workplace law headaches when it comes to federal wage and hour law and traditional labor law."

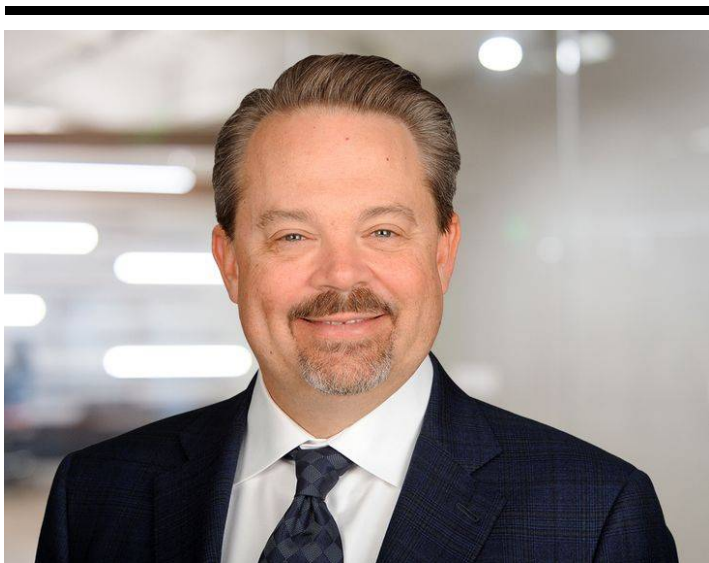

He said, "If passed, it would significantly reduce the risk of unexpected and unwarranted legal claims in any business model where a claim of joint employment is a possibility."
