

Charlotte Partner Quoted by EHS Today about OSHA Inspections

News

9.24.18

Leading up to the EHS Safety Leadership Conference, Travis Vance spoke with *EHS Today* on what attendees can expect from his presentation on how to make sure an OSHA inspection process runs smoothly. Travis says the session “will discuss the government’s tactics during inspections, including walkarounds, witness interviews, and document requests, and employers’ rights following the seminal Mar-Jac Poultry case. If safety leaders have an understanding of what their company’s rights are during an OSHA inspections, they will be more effective in defending OSHA citations and protecting workers.”
