

Attorney Comments on the Cost of Dust Explosion Lawsuits and How Employers Can Reduce the Risk

News

11.14.19

Combustible dust explosions are a hazard in nearly every industry, and when they occur they often result in costly litigation for the company. In an interview with *Powder & Bulk Solids*, attorney Howard Mavity noted that an explosion and resulting litigation “can totally destroy a company’s culture and morale.” The article explains that there is no “one size fits all” method for preventing such explosions, but Mavity explains “[t]here’s a lot of different ways you can eliminate the hazards, and it’s very dependent on each plant and its processes and its materials.”
