

Capabilities

EDUCATION

For more than 25 years, we've helped educational institutions navigate challenges from admission through graduation and hiring through separation. We understand your culture, community, and regulatory landscape – so we deliver practical, proactive solutions without a learning curve.

How we can help:

- K-12 Schools
- Higher Education

Every decision an educational institution makes – from admission through graduation or hiring through separation – potentially impacts the entire community. Highly skilled lawyers who thoroughly understand the unique concerns of an educational institution, as well as the unique culture of your particular institution, are a critical element to successful operations. As leaders in the education industry, Fisher Phillips' Education Law attorneys provide unequalled client service and efficient, practical solutions tailored to achieve the best possible results at every step. We partner with our education clients to identify and manage risk, meet compliance obligations and address issues prophylactically.

Our Education Team has been representing educational institutions of all types for over 25 years. We represent academic institutions throughout the U.S., including religious and secular independent, private, and charter schools and institutions of higher education. Our team handles legal and regulatory issues involving employees, students, and boards at all levels, from training and advice to administrative charges, litigation, and appeals.
