In a bylined article published by *Crain's Cleveland Business*, **Melanie Webber** explains that it is vital for buyers and sellers of businesses to understand their legal obligations in relation to the seller's union and work together to create a successful outcome. She notes that "[t]he decision to buy or sell – and the actions taken at and after the time of sale, may significantly impact the company's legal obligations to a unionized workforce." Melanie's article goes on to provide some important union-related considerations both buyers and sellers must keep in mind throughout a transaction.
