

The Top Five I-9 Mistakes That Can Create Hundreds of Thousands of Dollars in Potential Liability

Event

3.11.21

10:00 – 11:00 AM PST

Observers predict that 2021 will see large increases in I-9 investigations by ICE. I-9 investigations generate much-needed revenue for the government, in the form of monetary penalties, and increasing I-9 investigations is a bargaining chip for the Biden administration, which is seeking broad immigration reform. Moreover, ICE has invested large sums of money into AI technology that will allow the agency to process more I-9s in a shorter amount of time than ever before. In this session, we will identify the top five errors employers routinely make that can result in thousands of dollars in penalties per I-9, and we will discuss what can be done right now to significantly reduce that exposure.
