

Employers May Be Required to Disclose Pay Data by Gender

Publication

5.17.16

In the article, “Employers May Be Required to Disclose Pay Data by Gender,” featured in *Columbus CEO*, Attorney Mathew Parker examines possible implication for Ohio employers due to a proposed revision to the current EEO-1 Report, in which the EEOC will require employers with 100 or more employees to disclose detailed pay data, including a breakdown of this information by gender, race and ethnicity.
