

Biometric Data in the Workplace

Publication

7.19.16

In the article, “Biometric Data in the Workplace,” featured in *Best Lawyers*, C.R. Wright and Steven Ferenczy shed light on the rise of biometric technology in the workplace, in response to the rising tide of wage and hour claims against employers under the Fair Labor Standards Act and emphasize the importance of employers doing the necessary research to be prepared for the challenges associated with this evolving technology.
