

8 Tips to Prevent Autonomous Vehicle Cyber Breach Liability

Publication

5.22.18

Mike Greco authored the article “8 Tips to Prevent Autonomous Vehicle Cyber Breach Liability” published in *Automotive iQ*. The autonomous vehicle industry promises many societal benefits, including potentially eliminating all accidents and significantly reducing traffic congestion, but it also creates cybersecurity concerns. Mike explains that cybersecurity breaches are inevitable regardless of your company’s preventive measures. This article provides companies in the autonomous vehicle industry with specific steps to take in advance to avoid liability when data breaches occur.
