

Fisher Phillips Partners Advise Texas Construction Industry Professionals on OSHA Injury and Illness Data Reporting Requirements

Publication

7.27.18

Writing for *Construction News*, Pamela Williams and Travis Vance advised construction industry professionals that 2017 OSHA injury and illness (300A) reports were due July 1, 2018. Employers who have not yet submitted this data are likely to be “flagged” by OSHA. Pamela and Travis explained what affected worksites might expect from OSHA if they missed the filing deadline.
