

Autonomous Vehicles Practice Group Chair Pens Article on How to Prepare for a Cyber Breach

Publication

10.24.18

We're living at a time when a unique convergence of trends is ensuring that autonomous vehicles will soon change life as we know it. The benefits are not without risk; cybersecurity is a chief concern. In his article for *Autonomous Vehicle Technology*, Mike Greco shares eight tips to avoid autonomous vehicle cyber breach liability, including purchasing cyber liability insurance and preparing a written breach incident response plan.
