

Leibowitz Follow-Up: The Technology Driving Privacy Management for US Companies

PRESENTED BY PRIVACYOC

Event

9.22.22

8:30 AM — 9:30 AM PDT

It's no secret that technology is the driving force behind operations in every US business today, but how has that evolved in the privacy landscape? With the potential for federal privacy legislation and more states joining the fray in a patchwork of state laws, companies need to have a technology stack that can navigate the changes and scale with their growth. Our expert panel will discuss what technology is going to drive privacy compliance in the coming months and years, real-world application to potential and upcoming laws, and how technology gaps are leaving companies at risk.

Presented by:
