LEIBOWITZ FOLLOW-UP: THE TECHNOLOGY DRIVING PRIVACY MANAGEMENT FOR US COMPANIES

Presented by PrivacyOC

Event

Sep 22, 2022

8:30 am - 9:30 am PDT

It's no secret that technology is the driving force behind every US business today, but how has that evolved in the privacy landscape? With the potential for federal privacy legislation and states joining the fray in a patchwork of state laws, companies have a technology stack that can navigate the changes and support their growth. Our expert panel will discuss what technology will drive privacy compliance in the coming months and years, the application to potential and upcoming laws, and how technologies are leaving companies at risk.
