News

Oct 10, 2022

In an interview with *Northern California Record*, **Ben Ebbink** shares his insights on the latest California workplace legislation, particularly bills AB 257 and AB 2183. He describes these laws as "significant" and explains that they continue the trend of imposing new requirements and mandates on employers, many of whom are still struggling from the economic impacts of the pandemic. Ben also notes that with most of the legislation taking effect early next year, it's important for businesses to monitor any changes they'll need to adopt.
