

Raymond Perez Pens Article on Site Selection - 5 Workforce Factors to Consider

Publication

12.07.22

2022 brought a generational shift in the U.S. workforce and changed how companies structure their physical workplaces. In a bylined article published in *Site Selection's 2023 Workforce Guide*, **Raymond Perez** provides a detailed description of the key workforce factors employers should keep in mind when relocating or selecting office locations for their companies. Among the factors he covers are demographic data, education levels and resources, workforce competition, and the local regulatory environment for new locations.
