

## Florida Partner Pens Post-Pandemic Commentary for Orlando Sentinel

Publication

5.07.20

In an opinion piece published by the *Orlando Sentinel*, **Charles Caulkins** explores the current economic situation in Florida as the COVID-19 pandemic starts to subside and businesses look to reopen. In the article, he says it is time to turn to the private sector to apply their ingenuity, creativity and grit to develop risk management solutions for businesses. Charles calls on business owners to act responsibly on behalf of their employees and customers, and encourages residents to shop locally, dine out safely and ramp up support for local businesses.
