

Phillip Bauknight Profiled Among NJBIZ 2023 Leaders in Digital Technology

News

3.31.23

Phillip Bauknight, co-chair of Fisher Phillips' Cryptocurrency and Blockchain Practice was profiled among the *NJBIZ* 2023 Leaders in Digital Technology. Phillip is profiled for his continued efforts to serve as trusted counsel to his clients in a broad range of employment, business, and labor issues, including guidance on the complexities of blockchain technologies and digital currency in the workplace. When discussing why innovation is so important to him, Phillip shares that innovation solves problems and provides benefits to society at large. "New technologies generally reduce friction, provide better user experiences, and optimize human efficiency."

He told *NJBIZ* that Fisher Phillips is the first national workplace law firm to dedicate a team solely to employment issues arising from cryptocurrency and blockchain technologies, "we have provided counseling to a variety of companies on the business use cases and applications of blockchain technology and cryptocurrency in the workplace." He continues by explaining how he spots opportunities for innovation for his clients.
