Mid-Year Update: Recent OSHA Initiatives and Updates

On this episode of Toolbox Talks, Curt Moore is joined by Mitch Anderson, who recently joined the Fisher Phillips Workplace Safety Team.

They discuss OSHA's recent notice of rulemaking to amend the Construction Industry's PPE standard, and OSHA's new National Emphasis Program that targets warehouses and distribution centers around the country. Curt and Mitch provide insights for employers as to the potential implications of both the new rulemaking initiative and the new NEP.
