Event

11.01.23

2:00 PM — 2:30 PM EDT

The Fisher Phillips AI Workplace Forum is the nation's preeminent space focusing on the intersection of AI and all things employment – the singular place where innovative business leaders will get the news on how AI will be impacting their operations.

Join our next biweekly 30-minute rapid-fire session to hear firm leaders discuss the latest AI trends and breaking news. You'll have a chance to weigh in on the discussion and interact with the hosts and panelists during these engaging sessions. Up for discussion this week: while AI notetaker tools like Fireflies and Clickup are all the rage, there are some risks employers need to know about before using them in the workplace. We'll discuss the challenges to navigate and best practices you can put to use right away.

The firm will submit this program for HRCI and SHRM credit.
