Event

May 8, 2024

12:00 pm - 1:00 pm EDT

Internal wage and hour audits and compliance assessments are important tools for businesses to avoid costly wage and hour claims. In this presentation we will review key points on conducting a wage and hour compliance assessment. This includes what a compliance assessment entails, such as reviewing issues related to proper employee classification and compensation practices, timekeeping policies, and recordkeeping. We will also discuss best practices for conducting one. Lastly, we will go through how to implement any necessary changes in a manner that reduces the risk of future claims regarding problem areas that are identified in an assessment.

The firm will submit this program for HRCI and SHRM credit.
