

U.S. Immigration Strategies for the Life Sciences Industry

Event

7.25.24

10:00 AM — 11:00 AM PDT

Join us for a look into navigating the complex immigration challenges applicable to the life sciences industry. The unique demands in this industry require recruiting and hiring the best and most qualified talent from around the world. That, in turn, requires proper understanding and navigation of the complex visa work authorization processes to properly handle the current U.S. immigration landscape.

This program will provide insight for employers in the life sciences industry, including in-house legal teams, HR professionals, and talent acquisition specialists, as well as life sciences professionals: researchers, scientists, engineers, and executives seeking career opportunities or relocation.

Key Topics:

- Current Immigration Landscape in Life Sciences: Federal government immigration policies and their impact on talent acquisition of foreign workers within the industry.
- Visa Work Authorization Options: Detailed exploration of visa categories most relevant to the life science industry.
- Strategies for Employers: Best practices for sponsoring and retaining foreign national talent, immigration regulation compliance, and mitigating risks.

The firm will submit this program for HRCI and SHRM credit.

If you have any questions, please contact **Brandice Johnson**.

*Fisher Phillips is committed to providing access to all of our events for disabled attendees. Automated closed captioning is available for all of our webinars. For other accommodation inquiries, please give us three business days advance notice prior to the scheduled event by contacting **Brandice Johnson**. Thank you.*
