U.S. IMMIGRATION STRATEGIES FOR THE LIFE SCIENCES INDUSTRY

Event

Jul 25, 2024

10:00 am - 11:00 am PDT

Join us for a look into navigating the complex immigration landscape applicable to the life sciences industry. The unique demands of the life sciences industry require recruiting and hiring the best and most qualified talent from around the world. That, in turn, requires proper understanding and navigation of the complex visa work authorization process to properly handle the current U.S. immigration landscape.

This program will provide insight for employers in the life sciences industry, including in-house legal teams, HR professionals, talent acquisition specialists, as well as life sciences professionals, researchers, scientists, engineers, and executives seeking new opportunities or relocation.

Key Topics:

- **Current Immigration Landscape in Life Sciences:** Federal government immigration policies and their impact on the acquisition of foreign workers within the industry.
- **Visa Work Authorization Options:** Detailed exploration of visa categories most relevant to the life science industry.
- **Strategies for Employers:** Best practices for sponsoring foreign national talent, immigration regulation compliance, and mitigating risks.
