DECODING AI JARGON: MAKING COMPLEX CONCEPTS ACCESSIBLE FOR EVERYONE

Event

Jul 24, 2024

2:00 pm - 2:30 pm EDT

The Fisher Phillips AI Workplace Forum is the nation's preeminent space focusing on the intersection of AI and all things employment. It's the singular place where innovative business leaders will get on how AI will be impacting their operations. Join our next bi-30-minute rapid-fire session to hear firm leaders discuss the trends and breaking news.

Up for discussion this week: You might feel intimidated trying to wrap your head around what feels like a whole new language while trying to wrap your head about all things AI. We've got you covered! This interactive session will review the most common words, phrases, and acronyms you hear when discussing AI, and will also help you put them into context. You'll be a step closer to AI mastery at the end of this practical session.

The firm will submit this program for HRCI and SHRM credit.

If you have any questions, please contact [Jennifer Bonham](#).

Fisher Phillips is committed to providing access to all of our events for disabled attendees. Automated closed captioning is available for our webinars. For other accommodation inquiries, please give us your request on business days advance notice prior to the scheduled event by contacting [Jennifer Bonham](#). Thank you.
