Deepfakes: Navigating the Reality of Digital Deception in Schools

Event
1.14.25
1:00 PM — 2:00 PM EDT

In today's digital age, video content can no longer be trusted at face value due to the rise of deepfakes—highly realistic, artificially manipulated media formats that can spread misinformation and cause significant harm. As digital deception becomes more sophisticated, private schools face unique risks that could impact their communities, reputations, and compliance with evolving laws. This webinar will provide school administrators with essential knowledge and practical tools to understand and address the challenges posed by deepfakes, empowering them to protect their institutions in an increasingly complex digital landscape.

The firm is submitting this webinar for HRCI/SHRM credit.

If you have any questions, please contact **Elizabeth Hickman**.

Fisher Phillips is committed to providing access to all of our events for disabled attendees. Automated closed captioning is available for all of our webinars. For other accommodation inquiries, please give us three business days advance notice prior to the scheduled event by contacting **Elizabeth Hickman**. *Thank you.*
