# STAYING AHEAD OF AI LEGISLATION: KEY STEPS TO PREPARE FOR FUTURE PRIVACY RISKS

Event

Jun 3, 2025

12:00 pm - 1:00 pm EDT

**This webinar was rescheduled from Thursday, May 8, 2025 to Tuesday, June 3, 2025.**

As artificial intelligence continues to rapidly evolve, businesses face increasing concerns over how AI use impacts privacy risks, data collection, and the regulatory landscape. With the EU's AI Act setting the stage for future global regulations, U.S. businesses must prepare for the potential ripple effect of similar legislation, as state-level laws continue to emerge.

Join Fisher Phillips partners Dave Walton, Chair of the AI, Data, and Analytics practice group and Risa Boerner, Co-Chair of the Privacy & Cyber practice group, for an exclusive webinar on the future of AI and privacy regulation and the rise of state-level actions aimed at addressing the privacy risks raised by AI. In this webinar, we'll cover:

1. The growing impact of AI regulations on businesses, including privacy risks and data concerns
2. What we can expect from state-level enforcement and the potential for federal-level action under the new administration
3. Trends in litigation relating to use of AI, including class action claims relating to the sharing of data with third party AI vendors

## Related People
