

Staying Cool this Summer: What California Employers Need to Know in Navigating Cal-OSHA's Indoor and Outdoor Heat Illness Regulations

Event

5.20.25

9:30 AM — 10:45 AM PDT

Register for Webinar

As summer approaches, California employers will need to assess and implement measures to address elevated temperatures in indoor and outdoor workplaces. This webinar provides an overview of Cal/OSHA's Indoor and Outdoor Heat Illness Prevention Regulations, from the obligation to provide access to water and shade and cooldown recovery periods, to the requirement to monitor indoor temperatures and assess engineering and administrative controls for indoor work areas. We will offer practical tips for how to protect workers during high heat conditions, while ensuring your heat illness prevention program can pass muster with the enforcement agency.

This webinar is designed for employers in industries like agriculture, construction, and landscaping with employees who work outdoors in high heat conditions, as well as businesses operating warehouses, distribution centers, restaurants and other workplaces where the indoor temperature may be elevated.

The firm is submitting this webinar for HRCI/SHRM credit.

****Space for this program is reserved exclusively for clients and prospective clients of Fisher Phillips.**

If you have any questions, please contact [Abby Tasman](#).

Fisher Phillips is committed to providing access to all of our events for disabled attendees. Automated closed captioning is available for all of our webinars. For other accommodation inquiries, please give us three business days advance notice prior to the scheduled event by contacting [Abby Tasman](#). Thank you.
