

FP AI Forum: Darth Vader, Labor Law, and the Dark Side of AI

Event

6.25.25

2:00 PM — 2:30 PM EDT

Register for Webinar

A galaxy far, far away just got a little closer to your workplace. When a video game developer used an AI-generated Darth Vader voice without union negotiations, a union accused the company of illegally replacing human talent with AI. This isn't sci-fi. It's a real-world legal fight that could shape the future of automation, labor bargaining, and employer risk for unionized and non-unionized workforces alike. Join us for a fast, 30-minute breakdown of this pivotal case and what it signals about the growing scrutiny of AI in the workplace.

□ What You'll Learn:

- Why using AI to replace human work could trigger legal violations
- Best techniques to integrate AI into your workplace without upsetting the Force
- How to assess the legal risks before automating roles covered by a union
- What's likely to happen next – and why employers across industries should care

The firm is submitting this webinar for HRCI/SHRM credit.
