

2025 NAPEO Conference

Fisher Phillips has represented, advocated for, and protected the PEO industry from the early days of “employee leasing” when there was little to no licensing and limited legal certainty—to the present day where there is broad legal recognition of the PEO model, with over 40 states and the IRS recognizing it. We are proud to be a member of, contributors to, and a Medallion Partner of NAPEO and our attorneys have served as NAPEO Board Members.
