

# Florida's Digital Wiretapping Lawsuits: What Every Business Needs to Know Now

## Event

11.18.25

10:00 AM — 11:00 AM EST

In today's hyper-connected digital landscape, your website's engagement tools—like live chatbots, third-party tracking pixels, analytics widgets, and session-replay scripts—do more than simply improve user experience. They may inadvertently expose your business to litigation under evolving privacy laws. A wave of Florida-based privacy litigation has created new compliance considerations for businesses that use what are now commonplace website tools.

Join us for a timely and practical webinar, where privacy and compliance experts unpack the growing wave of “digital wiretapping” claims—including those arising under the Florida Security of Communications Act (FSCA)—and help you understand how to assess, prepare for, and mitigate this risk.

If you have any questions, please contact **Christian Davidson**.

---

## Educational Credits

### HRCI and SHRM

- The firm is submitting this webinar for credit.

### CLE

- Fisher Phillips will seek CLE approval as allowed by those jurisdictions. In certain instances, some programs may not be awarded CLE credit because of content, delivery or jurisdictional restrictions.

---

*Fisher Phillips is committed to providing access to all of our events for disabled attendees. Automated closed captioning is available for all of our webinars. For other accommodation inquiries, please give us three business days advance notice prior to the scheduled event by contacting **Christian Davidson**. Thank you.*
