## FP AI FORUM: AI NOTETAKERS: PRACTICAL USE CASES + HIDDEN RISKS

Event

Feb 11, 2026

3:00 pm - 3:30 pm EST

AI notetakers promise to save time, capture every detail, and make meetings more productive – but they’re also drawing lawsuits and raising serious privacy and compliance questions. In this interactive and fast-paced 30 minute session, we’ll take a look at what these tools can do, where they fall short, and how employers can decide if (and how) to adopt them. Featuring Usama Kahf, the Co-Chair of both our AI and our Privacy and Cyber teams, and AI/Privacy team member Danielle Kays, we’ll cover:

- How AI notetakers work and where they truly add value
- Real world litigation trends, including BIPA class actions and data capture concerns
- Practical guardrails for policies, consent, and usage
- What proactive employers are doing today to balance efficiency with legal risk

Whether you’re already using an AI notetaker or just curious, this session will give you the insight to make confident decisions in 2026 and beyond.

The firm is submitting this webinar for HRCI/SHRM credit.

If you have any questions, please contact [Joy Henry](#).
