FP AI FORUM: A BEHIND-THE-SCENES LOOK AT THE RECENT CONGRESSIONAL AI HEARING

Event

Mar 10, 2026

2:00 pm - 2:30 pm EDT

Lawmakers are grappling with the promise and risk of AI in the workplace as they consider new laws and regulations, and need input from employers about the ways to responsibly use the technology. And that's where FP comes in. The Co-Chair of Fisher Phillips' AI, Data, and Analytics Practice Group, Dave Walton, recently testified in front of Congress about this very question, and we're going to give you a behind-the-scenes insider look into his day on the Hill.

- What message did he leave with the House Committee on Education and the Workforce?
- What feedback did he get from lawmakers – on the record and off the record?
- What was the most surprising part of testifying on Capitol Hill?
- What did he learn for the next time he'll back?
- What does he think about the chances of federal AI regulation now that he's gone through this exercise?

Our host Rich Meneghello will help unpack Dave's recent testimony in this focused 30-minute FP AI Forum that you won't want to miss.

The firm is submitting this webinar for HRCI/SHRM credit.
