## PARTNERS PEN ARTICLE ON THE IMPACT OF AI ON WORKPLACE SAFETY

News

Jul 14, 2025

In a bylined article published in *Industrial Hygiene in the Workplace*, **Phillip Bauknight** and **Dave Walton** discuss the workplace safety benefits and risks of implementing artificial intelligence (AI). The authors explain that while AI can enhance workplace safety through real-time hazard detection and predictive risk mitigation, organizations must also be aware that there are legal concerns when AI systems overlook hazards, violate data privacy regulations, and perpetuate algorithmic bias.
