KATE DEDENBACH FEATURED IN Q&A ON AI LEGAL MINEFIELD FOR HOSPITALITY IT LEADERS

News
Oct 13, 2026

In an article published by *Hospitality Technology*, **Kate Dedenbach** discussed technical realities, architectural guardrails, and contract terms hospitality IT leaders need to establish to protect their operations from class-action traps. She also explained how labor regulations are increasingly targeting hospitality software such as automated candidate screening, predictive scheduling, and biometric time clocks.
