K-12 EDUCATION. AI, DATA PRIVACY & TECHNOLOGY IN INDEPENDENT SCHOOLS

Event
Dec 8, 2026
1:00 pm - 2:00 pm EST

Artificial intelligence and emerging technologies are transforming how independent schools operate, teach, communicate, and manage information. These tools also create new concerns involving student and employee privacy, cybersecurity, data governance, vendor management, and responsible use.

Join us for a practical discussion of the legal and operational risks schools should consider when adopting AI and other technologies. We will explore policy development, data protection, vendor agreements, appropriate use by employees and students, and steps schools can take to embrace innovation while protecting their communities.

The firm will submit this program for HRCI and SHRM credit.

If you have any questions, please contact **Elizabeth Hickman**.
