

Workplace Safety Wednesdays – Monitoring MSHA Updates

WEBINAR

Event

3.19.14

Join Fisher Phillips attorneys Matthew Korn and Betsy Weintraub for the March edition of the Workplace Safety Wednesdays webinar series. This free webinar series provides the latest updates on the Mine Safety and Health Administration's (MSHA) regulatory agenda, reviews recent decisions of the Federal Mine Safety and Health Review Commission, and provides useful insights to keep you up to speed on all things MSHA.

On Wednesday, March 19, 2014, Matthew and Betsy will discuss criminal liability under the Mine Act and the OSH Act, as well as environmental laws. They will discuss what actions (or in-actions) may create potential criminal liability under health and safety laws. Additionally, they will provide tips on avoiding criminal liability, including what to do during a criminal investigation. As a former prosecutor, Betsy will be a great resource for information on protecting yourself in the event of a criminal investigation – you won't want to miss this opportunity!

The webinar will also include a period of Q&A, where Matthew and Betsy will answer your questions about criminal liability, or MSHA/OSHA enforcement generally. This free webinar is a great tool for busy mining industry professionals and health and safety managers to stay ahead of the curve. We hope you can attend and look forward to continuing this series on a monthly basis.
