

You've Been Hacked, Now What?

Event

3.28.14

Partner Brent Cossrow will present, You've Been Hacked, Now What? on March 28, 2014.

Fisher Phillips has teamed with The Association of Corporate Counsel Louisiana Chapter for the presentation.

Coca-Cola Co., Target Corp., Société Générale SA and Goldman Sachs & Co. are just a few of the well-known companies recently victimized by a computer hack.

Such breaches of corporate computers by outsiders and disloyal employees are among the top concerns in 2014 for corporate America because the consequences can be catastrophic: violations of privacy of customer and personnel information, the loss of confidential business information and trade secrets, and a loss of confidence in corporate leadership.

During this presentation Brent will discuss the importance of determining when an attack has occurred, identifying the sources of such an attack – including the violative “inside job” and understanding the company’s obligations to secure confidential data, legal responses and means of recovery, and the role of in-house and outside counsel.

You've Been Hacked, Now What? (Part I)

11:00 a.m. – 12:00 p.m.

Lunch will be provided

12:00 p.m. – 1:00 p.m.
