

Workplace Data Protection: Minimizing Security Breach Risks and Responding to Sensitive Information Leaks

Event

4.22.14

Usama Kahf presented "Workplace Data Protection: Minimizing Security Breach Risks and Responding to Sensitive Information Leaks."

Tuesday, April 22, 2014

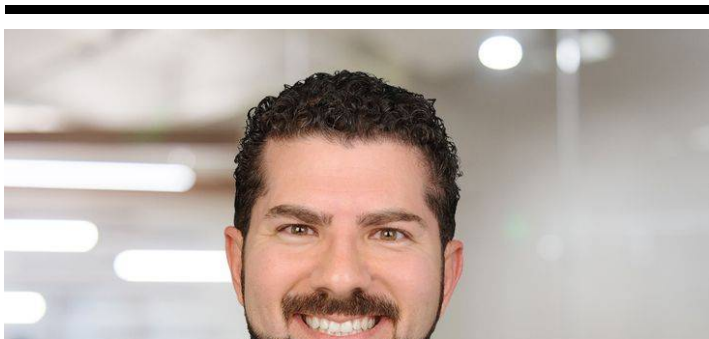

10:30am – 12:00pm (Pacific)

1:30pm – 3:00pm (Eastern)

Topics covered included:

- Why it's so important to ensure that you have appropriate procedural safeguards in place to guard against a security breach that could compromise confidential employee data
- The legal liabilities an organization could face should a data breach occur, and HR's role if that happens
- Best practices for safeguarding employees' sensitive data
- The type of organizational philosophy and processes organizations should have in place to keep electronic data safe and secure
- How to draft a policy that comprehensively addresses BYOD and the use of company laptops, which could pose significant risks for data breaches
- Notice requirements under state and federal laws in the event of a breach of confidential employee information
