

Workplace Safety Wednesdays – Monitoring MSHA Updates

WEBINAR

Event

8.20.14

On Wednesday, August 20, 2014, Matthew Korn discussed MSHA's recently published Proposed Rule regarding the criteria MSHA uses to assess civil penalties for citations. Matthew reviewed the proposed changes to the penalty criteria, the different weight given to various criteria, and the impact on the mining industry. Matthew also reviewed issues that were not addressed in the Proposed Rule, including MSHA's use of the special assessment process, flagrant violations, and other enhanced enforcement tools.

The webinar also included a period of Q&A, where Matthew answered questions about the Proposed Rule and its potential impact to your Company. This free webinar is a great tool for busy mining industry professionals and health and safety managers to stay ahead of the curve.
