WHAT TO DO WHEN THE GOVERNMENT KNOCKS

Event

May 14, 2015

HUMAN RESOURCES & WORKPLACE SAFETY SERIES

The Barrow County Chamber of Commerce, Fisher Phillips and Lanier Technical College are pleased to present the 2015 Human Resources and Workplace Safety Series. This seminar series is designed for business owners, managers and supervisors who must deal with real life workplace issues that have real legal consequences.

The Human Resources and Workplace Safety Series seminars are designed to provide professionals timely, updated information on the important legal topics relevant to their business and other important workplace legal developments.

All programs are approved for HRCI & SHRM recertification credit. Attendees will receive proof of attendance certificates to confirm they have received relevant training. Businesses benefit from a trained workforce, which increases productivity and decreases a company's liability for litigation.

What to Do When the Government Knocks

Congratulations. You've been selected for an audit by a government agency. Well, maybe that's not exactly how you are feeling. Let's face it, audits aren't fun. If you are faced with one, it is imperative that you know how to respond to it and protect your company from the potential consequences of government investigations and inspections, such as large penalties, and the possibility of criminal sanctions. This program will walk you through the preparation of a pre-inspection action plan as well as outline your employer rights against unreasonable government actions.
