HUMAN RESOURCES & WORKPLACE SAFETY SERIES

The Cumming-Forsyth Chamber of Commerce Human Resources Council, Fisher Phillips and Lanier Technical College are pleased to present the 2015 Human Resources and Workplace Safety Series. This seminar series is designed for business owners, managers and supervisors who must deal with real life workplace issues that have real legal consequences.

The Human Resources and Workplace Safety Series seminars are designed to provide professionals timely, updated information on the important legal topics relevant to their business and other important workplace legal developments.

All programs are approved for HRCI recertification credit. Attendees will receive proof of attendance certificates to confirm they have received relevant training. Businesses benefit from a trained workforce, which increases productivity and decreases a company's liability for litigation.

Performance Management, Discipline & Discharge

Performance management is the one of the most challenging areas for human resource managers to navigate. Effective screening, hiring and disciplining in a positive, constructive way will improve individual employee performance, as well as overall organizational effectiveness. Properly handling the discharge of an employee can avoid costly lawsuits for your company.
