

Building a Better Collective Bargaining Agreement: Better Nuts and Better Bolts

Event

10.29.15

Join Todd A. Lyon for an all-day interactive program on how to negotiate a better collective bargaining agreement. Whether you bargain with the Union yourself or have a negotiator, this exciting program will submit your prior experience to a 200-point inspection, leaving your employer with a well-prepared machine for the next bargaining session with the Union. You will have opportunities to work collaboratively with other HR and Labor Relations professionals in many hands on activities to diagnose what subjects are mandatory, develop an effective impasse strategy in case of a breakdown, and recondition historical language like seniority, management rights, and zipper clauses. Attendees are encouraged to bring their own collective bargaining agreements for personal reference.
