CYBER BREACH RESPONSE PROTOCOL : A 72-HOUR GAME PLAN FOR CONTAINING AND MITIGATING DAMAGE

Webinar

Event
Jul 21, 2016

BLR.com

Usama Kahf hosted a BLR webinar entitled "Cyber Breach Response Protocol: A 72-Hour Game Plan for Containing and Mitigating Damage," on July 21, 2016.

In the webinar, Usama focused on advising clients on their risks and responsibilities related to data security, and Brad Bach of Titan Technologies, will cover the key technical and legal issues facing a business that has a security incident on its hands. They will explore best practices when it comes to the right response tactics to identify, contain, and manage an incident and what you should – and shouldn't – do during those crucial first 72 hours.
