

Is Your School in Compliance with the New Wage Hour Regulations?

Event

11.03.16

Suzanne Bogdan is presenting a session at the Florida Council of Independent Schools Convention.

Wage Hour Law is a compliance challenge for independent schools, especially with the new regulations going into effect December 1, 2016. This presentation will simplify the law. We will analyze the exempt status of positions common to independent schools; discuss combination jobs; proper pay guidelines; and common violations. We will also address the concerns raised when a school advises employees who long thought they were exempt that they must now be paid differently and maintain time records.
