Partner Scott Schneider was a speaker at the LAPCS Annual Conference in New Orleans, Louisiana on December 13, 2016.

Wage Hour Law is a compliance challenge for K-12 schools, especially with the new regulations going into effect December 1, 2016. This presentation will simplify the law. It will also analyze the exempt status of positions common to K-12 schools and discuss common violations. Finally, the presentation will address the concerns raised when a school advises employees who were long classified as exempt that they must now be paid differently and maintain time records.
