Attorney Sidney Minter moderated a panel at the 2017 NELC Annual Conference on the topic of "Navigating a Maze of Paid Sick Leave."

Recent developments in sick leave laws have had a huge impact on employers' liability when handling sick or injured employees. Once an employer is notified that an employee is sick or injured, it must begin analyzing the intersection and overlap of sick leave laws, including, but not limited to: FMLA, ADA, STD, LTD and workers' compensation. This analysis can be very complex and confusing. The experienced lawyers on this panel will help dispel myths and provide clarity regarding the interrelatedness of the laws mentioned above. There will also be a portion of the presentation dedicated to hypothetical situations and analysis of recent case law involving these issues.

Speakers: Vicki Phipps, Littler Mendelson, Houston, TX Jimmy Robinson, Ogletree Deakins, Richmond, VA Ashley James, Facebook, Menlo Park, CA
