Are you looking to better understand how to handle audits or investigations by the USDOL or Colorado Department of Labor and Employment? We'll provide a workshop directed at keeping these agencies at bay, as best you can. After attending this interactive discussion, you will understand:

- How to reply to the initial notice of audit;
- How to respond to what typically is an overbroad (and largely onerous and unnecessary) request for information;
- How to minimize your liability, back pay, and penalties imposed by these agencies, including proper use of position statements; and,
- How best to approach the subject of settlement and compromise.
